Patient Name: Patient 1

Age: 65

Condition: Arthritis

Medication: Ibuprofen 200mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 2

Age: 28

Condition: Asthma

Medication: Amlodipine 5mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 3

Age: 42

Condition: Hypertension

Medication: Metformin 500mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 4

Age: 78

Condition: Heart Disease

Medication: Atorvastatin 10mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 5

Age: 30

Condition: Diabetes Type 2

Medication: Metformin 500mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 6

Age: 53

Condition: Hypertension

Medication: Ibuprofen 200mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 7

Age: 37

Condition: Hypertension

Medication: Ibuprofen 200mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 8

Age: 71

Condition: Diabetes Type 2

Medication: Atorvastatin 10mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 9

Age: 45

Condition: Hypertension

Medication: Metformin 500mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 10

Age: 70

Condition: Asthma

Medication: Atorvastatin 10mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 11

Age: 48

Condition: Diabetes Type 2

Medication: Metformin 500mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 12

Age: 73

Condition: Diabetes Type 2

Medication: Amlodipine 5mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 13

Age: 29

Condition: Arthritis

Medication: Ibuprofen 200mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 14

Age: 42

Condition: Hypertension

Medication: Salbutamol Inhaler

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 15

Age: 55

Condition: Hypertension

Medication: Amlodipine 5mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 16

Age: 73

Condition: Hypertension

Medication: Amlodipine 5mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 17

Age: 57

Condition: Hypertension

Medication: Amlodipine 5mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 18

Age: 20

Condition: Heart Disease

Medication: Metformin 500mg

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 19

Age: 72

Condition: Diabetes Type 2

Medication: Salbutamol Inhaler

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.

Patient Name: Patient 20

Age: 49

Condition: Arthritis

Medication: Salbutamol Inhaler

Notes: Patient advised to maintain healthy lifestyle, regular exercise, and follow prescribed medication.
